

DIAMAP: A Road Map for Diabetes Research in Europe

Sarah Hills, R.N., M.Sc.,¹ and Philippe A. Halban, Ph.D.²

Abstract

The DIAMAP Project, which has drawn up a road map for diabetes research in Europe, has now concluded, and the results are available in the form of a report and searchable databases. The DIAMAP road maps provide strategic guidance for diabetes research activity and investment in Europe, with the person with diabetes and a broad approach to research being integral to the process.
